Hi Lee,
Thank you for sending these. I appreciate your insight on this. Were you able to discuss with the Engineers? I can forward these comments to the applicant so they know what to provide more detail on in their next revision.

Me and Rob did go over this. Rob will actually be presenting the same thing to you. If you need anything else I'm happy to help.

Thanks

Ok, I'm glad you are all coordinating. I'll wait to see if I get updated comments from Rob and pass those onto the applicant then.

Thanks,
