Mayor Christensen and Members of the Driggs City Council,

Thank you again for the invitation to begin joint work sessions and establish a more collaborative relationship between our cities.

I am writing to respectfully ask the Council to table any action tonight that would change the historical allocation of operating costs or the method by which Victor is billed for wastewater treatment. It's come to my attention that the staff report proposes adding expenses that have not previously been charged to Victor and reconsidering the existing billing process. The Inter-City Agreement provides that Driggs will consult with Victor before incurring a material increase in operating and maintenance costs.

Making these changes unilaterally, before our councils have even held the joint discussions Driggs recently proposed, would unintentionally send a message that one city is setting the terms rather than the two cities working through issues as partners. Victor is not asking that these questions be avoided, nor is it our position that we are not responsible for costs incurred over the past year's back-and-forth with design. We are asking that they be reviewed together, with the full financial and technical information available to both councils. That would be consistent with the spirit of a collaborative process.

On a different topic, per the 2011 agreement in your staff report citing the "will serve" letters Victor staff and legal have repeatedly requested, attached is the spreadsheet of developments we are still waiting for express written consent from Driggs. The verbiage for your reference is: *Any single connection in excess of ten (10) equivalent residential units made to the trunk line and collection systems outside and inside of the City limits of Driggs and Victor shall be made only with the* ***express written consent of both cities which consent shall not be unreasonably withheld.***

Thank you for considering these requests. We look forward to working together.

Sue Muncaster
Mayor, City of Victor

Recognizing this is being sent late in the evening the day before the council meeting, I respectfully ask the clerk to ensure this letter is distributed to the Council and included in the meeting record.
